CAREER OBJECTIVE

Computer Science undergraduate with strong foundations in Data Structures, Algorithms, Python, and C++, and hands-on experience in web development and building data-driven applications. Seeking an internship opportunity to apply technical skills, gain practical industry experience, and contribute to developing scalable software solutions and intelligent systems.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering	2024 - 2028
COER University, Roorkee	
Class XII Unique Inter College, Muzaffarnagar	2023 - 2024

SKILLS

- **Programming Languages:** Python, C++, JavaScript, SQL, HTML5, CSS3
- **Web Development:** MERN Stack, MongoDB, Express.js, React, Node.js
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Problem Solving
- **Databases:** MongoDB, Advanced SQL
- **Tools & Libraries:** Pandas, NumPy, Scikit-learn, VS Code, Google Colab

EXPERIENCE

Intern at COER University	May 2025 - June 2025
• Improved problem-solving skills by practicing DSA during the internship • Gained hands-on experience in web development and building basic features • Learned to write and manage SQL queries for database operations	

PROJECTS

WPM Tracker | *Python, Django, Flask, MySQL 8.0, REST APIs*

- Built a web app to calculate typing speed (WPM) and accuracy in real-time
- Implemented timer-based typing test with instant results
- Developed backend to store and manage user performance data

House Price Prediction System | *Python, Pandas, NumPy, Scikit-Learn*

- Built a predictive model using 1000+ data records and multiple housing features
- Performed data cleaning and feature engineering, improving model accuracy by 15-20%
- Trained and evaluated 3+ regression models (Linear, Decision Tree, etc.) and selected the best-performing model

EXTRA-CURRICULAR ACTIVITIES

- Participated in hackathon and improved problem-solving skills
- Actively practicing Data Structures and Algorithms
